Continuation of Substance of Interview including description of the general nature of what was discussed: Is there a claim to benefit of DK 1035/96? Inventor's oath says priority not claimed, but MM can't figure out if a claim is made somewhere else in the file, the file has been imaged & it is difficult to find thiings. Yes, claim was made & acknowledged in earlier Office action. However, on reviewing file records, AK noted that this application was filed without figures, and authorized Exr's amendment to delete the figures and all references to them. Neither AK nor MM understand where the figures in the image file originated, possibly from a priority document. .
